

Alcohol policy technical visit to Turkey

Notes of Visit

Within the context of Alcohol Policy Network in the Context of a Larger Europe Bridging the Gap (Btg) The Eurocare Project, Eurocare Honorary Secretary Mr Derek RUTHERFORD and Dr Peter ANDERSON carried out an Alcohol policy technical visits to Turkey. The visit realized between 9-10 November 2005 according to the annexed programme arranged by Btg partner Dr Toker Ergüder.

1. On 9th November, EURO CARE team visited Ministry of Health and met with the Dr Hayati Baykan (Head of the mental health department), Mr. Adnan Coşkun (Deputy Director of primary health care general directorate) and Dr. Turan Buzgan (General Director of Primary Health Care General Directorate). All of the officials mentioned about importance of alcohol control activities in Turkey and role of MoH and health professionals. Although there is not high consumption of alcohol in Turkey but it is increasing among young people. So MoH and related institution have to be careful about future trends of alcohol consumption. Dr Anderson and Mr Rutherford attracted attention to risk of high alcohol consumption after joining EU, and pressure of alcohol industry on Turkey. Turkey protected by its own culture and religious beliefs but in near future with globalization and liberalization of market this situation can be changed like the Sweden and other Baltic countries after joining EU.
2. After visiting MoH, Eurocare team met with members of Green Crescent (Association Against alcohol, tobacco and drugs) at their office. On that meeting, effects of culture and religious beliefs on alcohol consumption.
3. Second day Mr Rutherford and Dr Anderson had participated the one day workshop organized by MoH and made presentations on “The Health, Social and Economic Impact of Alcohol” and “Eurocare and Alcohol Policy in European Union”. Workshop chaired by Prof. Dr. Recep Akdur and Dr. Tahir Soydal. There about 36 participants from different institutions and one of the advisers of Minister of Health (Dr. Süleyman Can Numanoğlu) participated the workshop. Presentations translated into Turkish and delivered participants before the workshop and consecutive translation made during the workshop. Coffee and lunch served the participants during the workshop. After presentations participants from different institutions explain their activities on alcohol control. By the request of participants for easy communication, an e-mail (alkolveyasaglik@yahoo.com) groups created. Now there are about 71 members.
4. Third day Eurocare team met with Prof Dr Recep Akdur and visited Public Health Department of Ankara University School of Medicine and discussed the role of public health professionals on alcohol control and probable projects in future. After that EURO CARE team visited Doç. Dr. Savaş Alpay vice president of Tobacco, Tobacco Products and Alcoholic Beverages Market Regulatory Authority, on that meeting Dr Savaş Alpay describe the role of his institution on alcohol market and explain difficulties and pressure of industry while controlling market and also need of other countries legislations or laws on that issue. EURO CARE team emphasize once more

their collaboration and interest to help Turkish authorities for preparing new legislations. After then we visited Ankara Alcohol Alcohol and Substance Abuse Treatment and Research Centre and met with Doç. Dr. Nesrin Dilbaz and her team in the hospital. Dr Dilbaz explained principles of alcohol and substance treatment services in Turkey. Availability of medicines, rights of patients, legislations, number of patients, monitoring systems etc. After visiting facilities of treatment center, EUROCAE team completed their technical visit in Turkey.
