Q9 Other things you want us to know.

Answered: 16 Skipped: 48

#	Responses	Date
1	I would have liked much more time for discussion in the plenary sessions. I also thought that, although the individual sessions were very good and there were many interesting presentations, a more focussed programme on key themes might have been better. However, very good and thanks to the organisers.	12/14/2016 3:57 PM
2	I wish more focus on latest research and future, not so much on past.	12/8/2016 4:31 PM
3	I would like to thank and congratulate to those who contributed to organize this fruitful Conference.	12/7/2016 6:59 AM
4	Overall the conference was a good event. However, there should have been more control over the length of time presenters were speaking for as this was not effectively monitored meaning that both days several sessions ran over time. Also, the length of breaks was not effectively monitored	12/6/2016 9:04 AM
5	Če bo mogoče, bi želela kot povzetek prejeti stripe g. Horovitz. Ip	12/5/2016 11:24 AM
6	/	12/5/2016 10:07 AM
7	Well done. Maybe next time to provide water in bottles during conference.	12/5/2016 9:25 AM
8	Loved the summaries!	12/5/2016 9:17 AM
9	The timing of sessions, especially Q&A, was sometimes not long enough, which did not allow for adequate discussion and questions from the audience.	12/5/2016 8:05 AM
10	Moderators should have stopped when time was short. Jan Pelozo was the one that tried with some effort.	12/3/2016 11:58 PM
11	Conference room was too dark, I could not take notes almost, otherwise the conference was excellent.	12/2/2016 3:48 PM
12	It would have been nice if the conference would have had one extra day so one could attend more of the workshops. The workshop on children's rights, or even human rights in general was very good and should have been a main program item.	12/2/2016 3:03 PM
13	Congratulations on the organisation and please invite Dr Horowitz again. Another suggestion: invite a sector representative (retail, horeca, producers or else) or an SAO when discussing non-state actors.	12/2/2016 3:01 PM
14	The organization of the round tables was sub-standard. These were not round tables but normal presentations with people sitting on the stage	12/2/2016 2:46 PM
15	a different venue for the social evening could have been beneficial	12/2/2016 2:43 PM
16	The sessions needed more time - there was too little time for questions and answers with audience which I think at this type of event is essential.	12/2/2016 2:41 PM
